Greetings,

I am pleased to publish the 1988 Abstract of Votes Cast which provides as complete a picture of Colorado voting behavior as our data will provide.

Compiled from material filed at our office, this publication profiles the voting patterns of Colorado voters both in the Primary and the General Election.

Some 1,416,266 electors exercised their voice at the polls in November 1988. This abstract is dedicated to those who realize that every voice is critical and counted in determining the direction of local and national governmental affairs. Our system of government would cease to exist without a concerned constituency who participates at every level of the electoral process.

Sincerely,

Natalie Meyer
Secretary of State
