EMERGENCY RULEMAKING JUSTIFICATION

SB11-051 was passed during and allows Central Collection Services (CCS) to offset Gaming and Lottery proceeds to pay towards outstanding debts owed to state agencies assigned to Central Collection Services to collect on their behalf.

Funds are currently available for intercept through Gaming and Lottery intercepts. Colorado State Agencies are entitled to these funds to satisfy delinquent accounts receivables on their financial books. In some cases, these funds are paid as restitution to victims of crimes, in other cases to custodial parents for child support, and in other cases as available funding to other students trying to attend Higher Education Institutions, as well as many other scenarios.

Any delay of funds available for intercept would be detrimental to those state agencies entitled to these funds, as well as others as noted above.

CCS has been working with Institutions of Higher Education and other entities to obtain support and concurrence with the Permanent Rule.

Kathy Nesbitt, Executive Director
