REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

This proposed rule incorporates revised codes per the American Dental Association CDT 2018 code book into Appendix A. These changes will make it possible for the grantees of the Colorado Dental Health Care Program for Low-Income Seniors to bill the correct procedure codes. No changes to covered services or payment rates are proposed; therefore, there is no change in costs due to the proposed rule

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

No changes to covered services or payment rates are proposed; therefore, there is no change in cost or economic impact on eligible seniors.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The Colorado Dental Health Care program for Low-Income Seniors has a fixed appropriation and the addition of these code changes will not increase the Department's administrative costs for the program.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

The incorporation of the revised codes will allow the Colorado Dental Health Care Program for Low-Income Seniors' grantees to bill the accurate procedure code based on the American Dental Association CDT 2018 code book.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no other methods for achieving the purpose of the proposed rule.
