8  
9                   **Regulation 6: Debilitating medical conditions and the process for adding new debilitating**  
10                   **medical conditions**

- 11  
12                   A.       Debilitating medical conditions are defined as cancer, glaucoma, and infection with or  
13                   positive status for human immunodeficiency virus. Patients undergoing treatment for such  
14                   conditions are defined as having a debilitating medical condition.  
15  
16                   B.       Debilitating medical condition also includes a chronic or debilitating disease or medical  
17                   condition other than HIV infection, cancer or glaucoma; or treatment for such conditions,  
18                   which produces for a specific patient one or more of the following, and for which, in the  
19                   professional opinion of the patient's physician, such condition or conditions may  
20                   reasonably be alleviated by the medical use of marijuana: cachexia; severe pain; severe  
21                   nausea; seizures, including those that are characteristic of epilepsy; or persistent muscle  
22                   spasms, including those that are characteristic of multiple sclerosis.  
23  
24                   1.       ADDITIONAL DEBILITATING MEDICAL CONDITIONS FOR WHICH AN  
25                   APPLICANT MAY APPLY FOR THE MEDICAL MARIJUANA PROGRAM  
26                   REGISTRY INCLUDE:  
27  
28                   a.       TOURETTE'S SYNDROME.  
29  
30                   C.       Patients who have had a diagnosis of a debilitating medical condition in the past but do  
31                   not have active disease and are not undergoing treatment for such condition are not  
32                   suffering from a debilitating medical condition for which the medical use of marijuana is  
33                   authorized.
