

Department of Health Care Policy and Financing

PUBLIC NOTICE

Durable Medical Equipment and Supplies Reimbursement

The Department of Health Care Policy and Financing (Department) will reimburse some previously manually priced prosthetics and durable medical equipment and supply codes directly from the Department's fee schedule. Reducing the number of codes reimbursed by manual pricing is expected to result in an aggregate decrease in expenditures of approximately \$103,000 per fiscal year.

Over the past several months, the Department has developed fee schedule rates for these items based on a methodical, code-by-code review using Medicare pricing, historical Medicaid payments and average reimbursement by other state Medicaid agencies.

A link to this notice and updated fee schedules are posted on the Department's Web site – Colorado.gov/hcpf. Written comments may be addressed to: Director, Medical and CHP+ Program Administration Office, Department of Health Care Policy and Financing, 1570 Grant Street, Denver, CO 80203.
