Medicaid Durable Medical Equipment and Supplies: Preferred Supply List

Effective July 1, 2012, the Department of Health Care Policy and Financing will establish a Preferred Supply List for medical supplies such as diabetic supplies. Establishing preferred suppliers gives the Department savings associated with rebates and lower prices. The Department will pass on some of these savings to providers by increasing the reimbursement rate for diabetic supplies. Supplies that are not on the Preferred Supply List will continue to be reimbursed at the current, lower rate and will require prior authorization. The Preferred Supply List will be posted on the Department's Web site at Colorado.gov/hcpf when it is implemented.
