(Optional) Paddle Switches: AbleNet 10033400 (2x)

(Optional) Paddle Switch Cable: Hosa Technology YMM-261 (for use with AbleNet switches)

(Optional) Accessible Tactile Interface (ATI) box, v1.1.0

(Optional) Accessible Tactile Interface (ATI-USB) box

(Optional) ICX Classic BMD Transport Bag

(Optional) ICX Samsung Transport Bag

(Optional) ICX Voting Booth

Federal Testing Information

Elections Division

Application for Certification or Modification of a Voting System

NASED or EAC Qualification or Certification Number(s): DVS-DemSuite5.5-C

Rule 21.3.6– Trusted Build Documentation

Trusted Build Installation Instructions

Rule 21.4.4 and 21.4.11(a) – External Test Documentation (check all that apply)

- An application penetration test conducted to analyze the system for potential vulnerabilities
- A source code evaluation conducted in accordance with Software Design and Coding Standards of the 2002 Voting System Standard
- A complete report detailing all findings and recommended compensating controls for vulnerabilities and deficiencies
- Other State test documentation

Rule 21.4.6(b) - Physical and Design Characteristics Documentation

Drawings, photographs and any related brochures or documents

Rule 21.4.10(c), 21.4.10(d)(1) and 21.4.11(b)(5) - Database and Operating System Documentation (check all that apply)

- □ Database Hardening Procedure
- Operating System Hardening Procedure
- Minimum services and executables required to run the voting system application

Rule 21.4.11(b), (i), (j), and (k) – General Documentation (check all that apply)

- System administrator/application administration manual
- Training manual and related materials
- Election definition programming and diagnostics manuals
- Minimum services needed for the successful, secure and hardened operation of all components of the voting system
- Security measures for all systems, software, devices (upload, download, and other programming devices) that act as connectors and any additional recommended security measures
- Processing standards for each component of the voting system
- Detailed information as to the type of hardware required to execute the software
- A statement of all requirements and restrictions regarding environmental protection, electrical service, telecommunications service and any other facility or resource required for the installation, operation and storage of the voting system

Elections Division

Application for Certification or Modification of a Voting System

Rule 21.4.11(d) – Battery Documentation (check all that apply)

- The steps and times required for charging batteries for each type of device submitted for certification
- Estimated time of battery operation for each type of device submitted for certification, assuming continuous use of the devices by voters during an interruption of normal electrical power

Rule 21.4.11(g) – Audit Documentation (check all that apply)

Documentation that includes the location and a description of the content of the audit trail information that applies to:

- Operating systems
- Election management system
- Election tabulation devices

Rule 21.4.11(h) - Voting System Security Documentation (check all that apply)

The documentation must contain configurations, properties and procedures to prevent, detect and log changes to system capabilities for:

- Defining ballot formats
- Casting and recording votes
- ☐ Calculating vote totals consistent with defined ballot formats
- Reporting vote totals
- Altering of voting system audit records
- Changing or preventing the recording of a vote
- Introducing data for a vote not cast by a registered voter
- Changing calculated vote totals
- Preventing access to vote data, including individual votes and vote totals, to unauthorized individuals
- Preventing access to voter identification data and data for votes cast by the voter

COLORADO SECRETARY OF STATE Elections Division

Application for Certification or Modification of a Voting System

The applicant shall be responsible for providing confidential or other "trade secret" documentation in a separate binder and/or electronic media with the information clearly marked as "confidential" or "trade secret" pursuant to section 24-72-204(3)(IV), C.R.S.

In making application for certification of the voting system listed above, I assert that the system meets the requirements of the Colorado Secretary of State Election Rules (8 CCR 1505-1).
