EXHIBIT A, STATEMENT OF WORK
(GRANT APPLICATION)

ELECTRONIC
RECORDING
TECHNOLOGY
BOARD

Grant Application

Updated 9-24-21

Background

In the state of Colorado, a one-dollar per document technology fee was implemented in the early 2000's to aid County offices across the state in funding technological advancements in recording. As a result, Colorado was the first multi-jurisdictional state in the nation to adopt e-Recording across the state.

In the spring of 2014, a working group made up of real estate, lending, legal professionals as well as counties conducted a statewide needs assessment and a request for information to evaluate the state of recording systems in Colorado.

In the spring of 2016, legislation was passed, and this board and a funding structure were created from Senate Bill 16-115.

Our Vision

To create, support, and maintain a statewide land records environment that promotes accessibility and consistency for the public in an efficient and user-friendly manner.

Our Mission

To develop, maintain, improve, replace, or preserve land records systems in our state.

Business Purpose

The business purpose of the board is to develop and modernize electronic filing systems throughout the state as defined in 24-21-402 (2).

Our Core Goals (24-21-403 (1))

- Assure the security, accuracy, and preservation of public records required to be maintained by a Clerk and Recorder.
- Maintain the privacy of personal identifying information, online public access to which is not necessary to the proper functioning of land title records or other public records required to be maintained by a clerk and recorder.
- Assure that the sequence in which documents are received by a clerk and recorder is accurately reflected to the greatest extent practicable.
- Provide for online public access to public documents while maintaining the privacy of personal identifying information when applicable.
- Assure that electronic filing systems used in different counties are similar so as to facilitate the submission and searching of electronic records.

Our Objectives

1. Develop a strategic plan that incorporates the core goals and establish the administration of the Electronic Recording Technology Fund and Board.
2. Determine functionality standards for an electronic filing system that supports the core goals.
3. Issue a Request for Proposal (RFP) for electronic filing system equipment and software that the counties may choose to acquire.
4. Develop best practices for an electronic filing system.
5. Provide training to Clerk and Recorders related to electronic filing systems.
6. Develop a grant program, prepare reports and promulgate any necessary rule-making.
7. Develop subcommittees and project timelines for implementation.

Who is eligible for grants?

Any Colorado County Clerk and Recorder.

Eligible projects may include digitization and indexing of documents received for recording in the office of the county clerk, especially documents that affect rights in real property.

In addition, the ERTB may approve a grant application when a portion of the grant funds will be used to digitize public documents that are not related to real property but that are managed by the county's electronic filing system. See CRS § 24-21-404(2)(b)(II), as enacted by HB 21-1225. For further information, see the Board's Policy Governing Grants for Digitization and Indexing.

In addition to projects that establish, maintain, improve, or replace an Electronic Filing System, eligible projects may include improvements to the security of a county's general information technology systems, if the improvement is necessary to improve the security of the county's electronic filing system. (Added by HB 21-1225)

Deadline and Important Application Process Reminders

Grants will be considered on a monthly basis. In order to be considered for a grant, please submit your completed application via the on-line application or downloadable PDF at www.ertb.org by the first business day of the month. PDF applications can be emailed to ERTB.Grants@Coloradosos.gov. Counties will be notified by a grant award letter within 60 days and will be asked to sign a grant agreement. Please direct any questions about the application to ertbexecutivedirector@gmail.com.

Quotes/bids that support the grant-funding amount being requested must be included. Similar detail regarding past expenditures must be provided if reimbursement is being requested.

In order to improve a county's application, the county is encouraged but is not required to submit "letters of support" for the grant. It is recommended that these letters come from various sources, including (but not limited to) county government officials, industry partners or customers, chambers of commerce, or business leaders, etc.

Conditions for Receiving Grants

Before applying for any grant funds, please read the following conditions that will be included (but not limited to) as part of your grant agreement:

- Counties will cooperate with the Electronic Recording Technology Executive Director and Board and in their statutory reporting requirements.
- Any vendor contracts must include training on any equipment being purchased.
- Counties agree to participate in recording best practices, as defined in 24-21-403 (3) (d).

The Electronic Recording Technology Board will respond within 60 days. All funds must be expended by June 30, 2026.
- Counties will be required to provide proof of purchase by a signed contract or paid invoice for any new purchase along with a completed audit form to be provided. Audit forms must be completed within 30 days of receipt. These can be emailed to ERTB.Grants@Coloradosos.gov.

The County must maintain an accounting system and financial records that accurately account for the receipt and disbursement of Grant Funds. For this purpose, the county may use either general ledger fund accounting that tracks Grant Funds separately from other County funds, or use a tracking spreadsheet. Grant funds allow us to preserve are records and provide copies to the public.

UPS for systems \$172.50; \$575 for recording monitor arm; \$13,915.44 for Map Scanner HP T2600ps; Equip./Parts/Service at \$770.00 per year for 12/17/23 through 12/16/25 (2years) from United Reprographic Service; \$4,975 ScanPro 2500 \$150 installation & Training of ScanPro and \$995 per year for maintenance (2024-2025.)

If you are requesting grant funding for digitization and indexing, please provide a general description of the documents to be digitized and/or indexed, the approximate date ranges, the total number of pages or documents, and an estimate of the percent of documents that are not related to interests in real property. If there are documents not listed in the Board's Policy Governing Grants for Digitization and Indexing. as examples pf real property documents but the Clerk believes are related to interests in real property, please provide an explanation of why the documents are related to real property. Attach supporting bids if applicable. Bids should include the number of pages and/or documents to be digitized and/or indexed. For further information, see the Board's Policy Governing Grants for Digitization and Indexing.

If you are requesting grant funding to improve the security of your county's general information technology systems, please describe generally the security measures to be undertaken with grant funds and explain why/how the improvement is necessary to improve the security of your electronic filing system.

We are requesting an upgraded recording server with UPS units to increase security measures.

If the grant is for temporary staff, what specific project will the staff be working on? (Please attach a Statement of Work).

How do you plan to segregate grant funds from county funds?

We segregate funds through a line item on our budget and a working excel worksheet.

Will any monies from your technology fund be used for the purpose(s) contained in the grant request? If yes, how much?

No. I am still using that fund for a previous grant request.

If no, explain the plans for the use of your technology fund.

The project went overbudget and I planned to use the fund for the original intent and the overages.

Will this be (or was this) a competitive bid process (RFP) or an upgrade to an existing system?

Upgrade of an existing system for the recording system. No RFP process was used for the map scanner. Bids were received for the ScanPro 2500 and similar systems but it was not an RFP process.

Will the grant award increase your annual maintenance costs? If so, do you have a long-term plan to budget for the increase?

If no maintenance cost is included in the grant award, I have budgeted to pay for the annual cost for the recording system and the Map Scanner. The ScanPro 2500 plan is to possibly use the \$450 per maintenance cost and \$75 per hour remote support if the preventive maintenance is not awarded in the grant for the years 2024 & 2025. That is my plan for 2023 for the ScanPro.

Describe how the funds will be used to achieve the stated business purpose and core goals.

A) To assure the security, accuracy and preservation of public records

Up-to-date equipment that records and preserves our records and help with security.

B) To maintain the privacy of personal identifying information, online access.

Redaction is utilized and maintained with up-to-date equipment and fund replenishment.

C) To assure that the sequence in which documents are received by a clerk are accurately reflected to the greatest extent practicable

Greater ease to do work quickly and efficiently with upgraded equipment

D) To provide for online public access to public records

The maintenance fee funds will allow on-line records and upkeep with law changes.

E) To assure that electronic filing systems used in different counties are similar so as to facilitate the submission and searching of electronic records.

The funds will allow our recording department to be upgraded to allow easier use to the on-line users and ourselves and for staff to easily provide records for records not on-line at the time. Research in the office and on-line will be the same and easy to use.

With my signature below, I do hereby certify that I have read, understand, and support the above application for grant funds through the Electronic Recording Technology Board.
