What percentage of your land documents are accessible online? What will the percentage be if this grant application is approved?

Same as above. All documents are scanned, but not all indexed. None are online right now. Our plan is to go online with images once everything is properly indexed.

Grant Information

Why are you applying for grant funds?

Our county is struggling financially right now. They are cutting staffing and funding in a lot of departments. I would like this grant to cover our annual Tyler invoice for 2024.

Amount of grant request (no funding requests involving expenditures past June 30, 2026).

\$24,234.77

What do you want to use the grant money for? Break out the expenses and include bids, invoices, or proposals with your request. What specific equipment and software do you want to purchase?

This is for our annual subscription fee to Tyler Eagle Recorder. It will help me to be able to keep my current staff in Recording as well, and allow us to keep up with the customers that come to the counter with recordings.

If you are requesting grant funding for digitization and indexing, please provide a general description of the documents to be digitized and/or indexed, the approximate date ranges, the total number of pages or documents, and an estimate of the percent of documents that are not related to interests in real property. If there are documents not listed in the Board's Policy Governing Grants for Digitization and Indexing, as examples pf real property documents but the Clerk believes are related to interests in real property, please provide an explanation of why the documents are related to real property. Attach supporting bids if applicable. Bids should include the number of pages and/or documents to be digitized and/or indexed. For further information, see the Board's Policy Governing Grants for Digitization and Indexing.

If you are requesting grant funding to improve the security of your county's general information technology systems, please describe generally the security measures to be undertaken with grant funds and explain why/how the improvement is necessary to improve the security of your electronic filing system.

If we can keep our Technology Surcharge Fund, I will be using this to go online with all of our images and offer fraud protection to our residents. This will happen when the indexing project is complete. That is expected to be completed in 2024.

If the grant is for temporary staff, what specific project will the staff be working on? (Please attach a Statement of Work).

n/a

How do you plan to segregate grant funds from county funds?

This will be used to pay for one invoice, so I don't think this is necessary for this particular request.

Will any monies from your technology fund be used for the purpose(s) contained in the grant request? If yes, how much?

No

If no, explain the plans for the use of your technology fund.

As stated above, this will be used to provide online access and purchase of images, as well as adding fraud alert.

Will this be (or was this) a competitive bid process (RFP) or an upgrade to an existing system?

No

Will the grant award increase your annual maintenance costs? If so, do you have a long-term plan to budget for the increase?

No.

Describe how the funds will be used to achieve the stated business purpose and core goals.

A) To assure the security, accuracy and preservation of public records

I need to be able to keep my current recording staff to be able to maintain our statutory obligations. This will help with our budgeting.

B) To maintain the privacy of personal identifying information, online access.

C) To assure that the sequence in which documents are received by a clerk are accurately reflected to the greatest extent practicable

D) To provide for online public access to public records

We will be going online once our indexing project is complete.

E) To assure that electronic filing systems used in different counties are similar so as to facilitate the submission and searching of electronic records.

I do believe that Tyler Eagle Recorder is a great product. We want to continue this relationship with them, even though their costs are high. This will help us to get through another year.

With my signature below, I do hereby certify that I have read, understand, and support the above application for grant funds through the Electronic Recording Technology Board.
