July 13, 2015

Dear Sirs:

You have severe voting issues with the permanent absentee voting at the current time, If you implement electronic voting via the internet one can only imagine the voting corruption that will happen. I have spent thousands of dollars trying to get voting corrected and have been all the way to the Colorado Supreme court because of small town politics that are corrupt!

When votes can be harvested from the ignorant, the shut it people, public housing and head start parents who would not have voted and the signatures are forged, voter affirmation is forged and then collected for the polls by only a few people just think of what they can do without a polling area as our forefathers planned voting should be.

Most Sincerely;
Maurice Jones
