Dear Sir,

I am writing in regards to the internet voting bill. I hope you will deny this bill, I understand the reason for the bill to let the Military vote get counted. Like we are finding out,there are so many people that find ways to take advantage of ways to cheat. This would be hacked into, and only help the cheaters to do it. I don't think we want to believe that can happen, but in this day and age all things seem possible. The mail in vote is and has been compromised and elections are tainted. Why make it even easier? Please do not do internet voting.
