hello,

why are you making it harder to register to vote, harder for poll watchers to police unauthorized activity & in effect, reduce the number of polling places?

this smacks of forcing anti-democratic activity & reducing the availability polling places & trained election workers & watchdogs for coloradans to democratically elect their representatives.

you, as secretary of state, are given the responsibility to facilitate the equality & availability of opportunity for voters to cast their ballot without promoting one party over another, or any candidate over another. your rationale of "providing uniformity" is a guise to deny fair voting principles to the registered voters of colorado.

please rescind these proposed changes immediately.

respectfully yours,

lisa g mcdonough
