Notice to Secretary of State & Legislature

I DAVID L. FEAGANS one of the People, am giving you notice that you may provide due care: Colorado Constitution Section 1, Vestment of Political Power.

All political power is vested in and derived from the People: all government of right originates from the people, is founded upon their will only, and is solely for the good of the whole.

Please take notice: the government is created to protect and maintain the original rights of the people as servants and trustees. The government is founded upon the will of the people only, and the will of servants was never meant to dictate policy for the people. Though the people see that you are making attempts to block audits, I as one of the people am well aware that where rights secured by constitution are involved, there can be no rule-making that would ever remove those rights, nor can the legislature write statutes that would do the same – see the following court case:

“Where rights secured by the Constitution are involved, there can be no rule-making or legislation which would abrogate them.” Miranda vs. Arizona, 384 US 436, 491.

Please take further notice that I, as one of the people, am not amused at your use of authority you have not been granted, and look forward to the full forensic audit of the people’s 2020 election. Making “rules” for the persons of government has nothing to do with the people who have all political power and who control your office and seat. You have no right to reform and abolish the Constitution and the government whenever it’s deemed inadequate.

If you believe the above is untrue, please respond within five days with Constitutional provisions that show you have been granted authority to rule over the people in these matters. If you fail to respond within five days, with constitutionally granted authority for what you seem to be attempting to use as powers granted, you agree that you are knowingly trespassing against the people and directly trampling the oath you have sworn to the people.
