---

I am absolutely against any changes in the current Colorado election system! We have to preregister, show a photo ID, validate our address, etc. in order to get on a flight to anywhere in the country as well as provide a valid passport and in some cases a “Yellow Book”– or health/immunizations certificate to visit other countries.

Voting is both an right of US citizenship and one of our sacred freedoms as well as a responsibility . I am not willing to give that away!
