To Secretary Griswold:

I would like to stress our support of the comments made by the Colorado County Clerks association, but I would like to make additional comments on rule 4.5.2(e)(3):

This rule has a chronological contradiction to statute 1-5-407(5)(a) which requires the order on the ballot to be "Ballot measures by other political subdivisions greater than a county (7A-7Z) to be placed before "Ballot measures by other political subdivisions wholly within a county (6A-6Z). I feel this is a valuable opportunity to number the ballot questions in the correct order so we do not have ballot numbering out of order on our ballots.
