---

**8/15/25**

*As a concerned citizen for the past 45 years i have developed resentment of the 'sanctuary' policies for which i NEVER VOTED. I simply cannot accept the imposition of policies without it being put to a vote by the citizens of the cities and communities that are affected by these policies.*

*Additionally, proper identification should be an ABSOLUTE requirement and when, as a 21-year-old, i had to trek to the DMV as i had no car, i did it and there should be NO ENTITLEMENT to it being considered an 'inconvenience or hardship.*

*These are my concerns and i believe our children deserve representation that is honest, hardworking, and fair, none of which is on display in our current Colorado governance.*

*Respectfully,*

*Dale Solan*
